Berserk Man Kills One, Injures Second In Six-Hour Gun Battle

JASPER PLACE — A First World War veteran with the French forces, James Alix, 65, has been charged with murder following the shooting of a Jasper Place councillor. Alix, who is being held at Oliver Mental Hospital, held 30 policemen at bay for six hours from his trench-fortified front yard, Sunday.

Dead is Richard Butler, 44, 10124 152 St. Fire Chief Barney Weygood, 41, 10911-158 St., was shot in the stomach.

The battle started as the 65-year-old gunman fired several shots into a car parked in front of a neighbor's home and in the direction of several persons.

He then holed up in the trench system, in front of a converted box car that served as his home, with .22-calibre and .30-.30 - calibre rifles and a 12-gauge shotgun.

He was slightly wounded before police sent the bulldozer to chase him out.

After the capture, the man told police he had dug the trenches so he could shoot at people. Neighbors reported that the man had said Saturday that some persons were "out to get me."

TEAR GAS

Butler, who was Jasper Place's deputy fire chief, came to the scene with the department and had been handling hoses before his death.

Police believe Butler lobbed two tear gas cannisters at Alix just before his death. He is believed to have fired one shot from a .38 police revolver he was carrying and wounded Alix before he was brought down by a volley of shotgun pellets. He was found behind a hedge just west of Alix's trenches.

Nearly 30 policemen, armed with revolvers, took up vantage points behind trees and on rooftops to exchange shots with Alix. Inspector J. McMurray of the city police department is quoted as saying: "They shoot to hit and pray to God they don't kill him." Police could have killed Alix earlier but they were attempting to take him alive, Chief Stevenson said.

Athabasca Health Unit

The Athabasca Health Unit has stabilized the days on which Baby and Pre-school Clinics are held throughout the area.

For instance if the Clinic in your location occurs on the first Tuesday in August, it will always be on the first Tuesday of each month, regardless of date, unless this happens to be a Public Holiday in which case the Clinic for that particular month only, will be cancelled.

Attendance at the Athabasca Health Unit office does not warrant a weekly Clinic, and so there will be no Clinic on the second Friday of any month. The morning of the fourth Friday of each month is reserved for adults only.

There will never be a routine monthly or weekly clinic on the fifth week day of any month.

Please don't forget the importance of receiving your inoculations against Poliomyelitis.

Service Attendance At Bible Camp Breaks Record

The annual Bible Camp, sponsored by the Canadian Sunday School Mission, was held at Little Egg Lake, July 14-20. Though not as many campers were registered as last year, the attendance at the Sunday services broke all records. More than 100 attended the morning service and enjoyed the chicken dinner served by the ladies and a larger number attended the afternoon service.

Director of the camp was Rev. Melvin Fredlund of Three Hills, missionary speaker was Rev. Kenneth Jardine of the Mission to Orphans, Cuba. Councillors included Miss Violet Hiltz, Breynat; Miss Helen Guinand, Lac la Biche; David Johnson, Three Hills and Bill Danyluk, Two Hills. Cooks were Mrs. Ed. Cadieux, Mrs. Emil Cadieux and Mrs. Ed. Guinand. Two cabins were built by volunteer help during camp in readiness for next year.

MRS. K. STEFANIK

Pioneer Honored On 78th Birthday

LAC LA BICHE—A turkey dinner was held at the York cafe recently to honor Mrs. Katherine Stefanik on her 78th birthday. Present to help her celebrate the happy occasion and to wish her many more happy years with them all, were five of her sons and their wives, Mike and Virgie, Sam and Nancy, Paul and Cassie, Andrew and Mary and John, all of Lac la Biche, daughter Mary of Whitehorse, son Ernie and wife, Irene of Vegreville and Nick Kozak of Whitehorse, Yukon.

Mrs. Stefanik, who came from the Ukraine in 1900, settled first at Mundare, later moving to Vegreville before coming to Lac la Biche in the 30's. She is well and active, managing her own home and raising a large garden each year.

Macleod Store For Lac la Biche

LAC LA BICHE—It is reported that a new Mac'eod Farm Supply Store will be established in the town.

Latest word is that it will be located in the former Mischuk store.

The new store will be further testimony to the continuing progress of this northern Alberta town of 1,500.

TOWN BUILDING PERMITS TOTAL OVER 44 THOUSAND FOR JULY

Building permits issued by the town of Lac la Biche since the beginning of July, have reached a total of $44,115, with several recent applications yet to be considered when the town council meets.

Although quite a number of permits were for smaller buildings, such as private garages, mink sheds, etc., a permit for a new store building estimated to cost $30,000 was issued to Michael Hamar. The building, which is already under construction, is to be of insulated concrete blocks and steel, with the roof to be of steel. The 50 by 90 foot structure is being erected on property adjoining the existing Michael Hamar store on the south.

Extensive alterations are being made to the Hudson's Bay Company Store, and although final figures were not available at the town office, it is expected the cost will be well over $30,000. The changes include a new floor, painting of both interior and exterior, throughout, a change of the heating system, new wiring, completely new fixtures and show cases.

The town water tower has just received a new coat of silver paint. The Lac la Biche Hotel has been freshly painted, and quite a number of private homes have been painted in recent weeks.

Work on the new class rooms and gymnasium at the primary school is being stepped up to be ready for school opening in Septemher, although the gymnasium will not be completed for a rew months.

Total permits issued to the end of July, including improvements to the Memorial Hall, amounted to $71,000.

Former Lac la Biche Resident Passes

Archibald Gordon McErwain, 76, of 8527 — 82 Ave., Edmonton, a former well-known and respected resident of Lac la Biche passed away at his home from a heart attack.

Left to mourn his passing are his wife and three daughters Mrs. Nettie Coutts of Edmonton, Mrs. Gladys Howard and Mrs. J. D. Shaw of North Battleford, Sask.

Funeral services were held from Hainstock and Son funeral parlors Monday. Canon Wilson officiated and interment took place in Mount Pleasant cemetery.

Car Overturns Two People Hurt

ATHABASCA — Two persons were taken to hospital here Sunday after their car skidded from the highway and overturned near Lahaiesville, 15 miles south of here.

Mr. and Mrs. Martin Baker of Perryvale the injured, were not reported in serious condition.

Offer $1.95 Cheque To Save Alabama Man's Life

EDMONTON—T. W. Pue, publisher of a number of weekly newspapers in Alberta, has sent the state of Alabama a cheque for $1.95.

Along with it he sent a letter to Governor James E. Folsom in the Alabama capital of Montgomery urging that the life of the colored man to die on Friday, September 5 be spared.

The man has been condemned to death because he stole $1.95 from a white woman.

The letter was air mailed special delivery.

In the House of Commons, leaders of three political parties expressed deep concern about the matter, and called on the prime minister to use Canada's "great influence" at all possible levels to prevent the sentence being carried out. Mr. Diefenbaker said it would be improper to offer gratuitous advice to another country about its criminal law. Under Alabama law, robbery is an offence punishable by death.

Bishop Returns From Europe

Most Rev. Neil Savaryn, bishop of Western Canada for the Ukrainian Greek Catholic Church, returned to Edmonton Thursday after a month-long visit to Europe.

Main purpose of his visit was to make a pilgrimage to the grotto of Lourdes but he also visited Paris, Madrid, the Brussels World Fair and Rome.

While in Rome Bishop Savaryn was received in audience by the Pope, who told Bishop Savaryn he was very interested in the problems of the Ukrainian people and prayed constantly, not only for their religious freedom, but also for their national freedom. He sent his blessing to the Ukrainian Catholics in Canada.

His Holiness was also interested in recent changes of church organization, particularly the creation of the new metropolitan see of Winnipeg.

Bishop Savaryn said the gathering, in Lourdes, of 1,600 Ukrainians from Europe and North America, was the largest pilgrimage his people had ever made.

Bishop Savaryn said the Canadian exhibition at the Brussels World Fair "compared very well with the exhibits of other countries. From every point of view it showed Canada to good advantage."

One of the most interesting parts of his trip, he said, was a visit to the small village of Sarcelle, a short distance from Paris.

A number of university professors who escaped from Western Ukraine in 1945 are working there on a Ukrainian encyclopaedia, of which three volumes have already been published.

In Spain Bishop Savaryn visited Monsarrat Monastery, one of the most famous in Europe, established by the Benedictine Order in the 8th century.

At the airport to greet the Bishop were Most Rev. Basil Laba, vicar-general of the diocese, Rev. Michael Sopulak, diocesan chancellor, Rev. P. Kachur, other members of the clergy and of the Ukrainian Scout movement.

You can't tell how much sense a person has by looking at him, but you can get a first impression.

Bank Of Nova Scotia Reports Alberta Better Than Average

Alberta farm income has been running appreciably above last year, the June report of the Bank of Nova Scotia on Canadian business regions discloses.

The report states that the continued expansive influences in natural gas and in mining, apart from coal, have more than offset the marked contraction in Alberta oil production. Oil was running one-fifth below a year ago.

During the first five months of the year, industrial employment in Alberta was only about 2½% below a year ago. Retails sales have been quite well maintained in the province.

The encouraging upturn in wheat exports since last November, the report adds, and increased returns from livestock reflecting receptive markets and higher prices in the U.S. have improved the prairie farm situation considerably.

Wheat Pool Issues "Warning"

The Alberta Wheat Pool has information which indicates that a high pressure sales campaign to sell a type of crested wheat grass, called "Nordan", to Alberta farmers at inflated prices is due to be launched in the near future.

The Wheat Pool advises farmers that "Nordan" is a type of crested wheat grass developed in the United States which has no particular advantage over Summit crested wheat grass.

Registered Summit sold for 64 cents a pound, sacked and delivered, last spring. Nordan should not command any premium over this price.

Any hope of raising it to sell at premium prices next season is groundless. It should also be remembered that only commercial seed can be raised from certified stock.

The Alberta Wheat Pool cautions members about purchasing Nordan crested wheat grass at prices higher than those asked for Summit.

Northwestern Utilities Booklet Outlines Company's Development

EDMONTON — Northwestern Utilities Ltd. has published a booklet on its services in Alberta entitled "Natural Gas At Your Service in Alberta".

The publication shows that the company serves 77,959 customers in 57 Alberta communities and reports it can provide a maximum daily demand of 255 million cubic feet. Natural gas is drawn from 152 wells through 1,964 miles of pipelines.

This year the company completed a 70-mile transmission line from the Pembina Oil field to Edmonton.

The booklet traces the company's history from its start in 1923 to the present, pointing out that up to 1949 all the requirements for natural gas were supplied from the Viking-Kinsella field.

THIEVES STEAL GARAGE

EDMONTON — Marie Janee told police a two-stall garage had been left on a piece of property she had sold. She went to inspect the place and found only the garage foundation. Police learned from residents in the area that three men had torn down the structure and hauled the material away in a truck.

Will Announce Egg Plan Vote Results Sept. 8

Results of voting on the Alberta Egg Marketing Plan won't be known until about Sept. 8, states R. H. McMillan, poultry commissioner for the Alberta government.

Over 13,000 ballots have been received by mail from all parts of the province. Total count is expected to be around 26,000.

Producers must mail their ballots in before midnight Aug. 30.

Mr. McMillan said the count will be delayed a week as he will be conducting a clinic for 18 members of the poultry branch on poultry testing that week.

From Sept. 1 and into December, government men travel throughout the province testing laying flocks. About 400,000 laying chickens which produce eggs for market are banded.

Mr. McMillan said it would take a good half a day to make the count, after which results would be announced.

Enjoy Tour In Europe

LAC LA BICHE—Mrs. and Mrs. William Dorish and daughter, Bonnie, returned recently from an extended tour of Europe, and have taken up residence in their home on Saskatchewan Avenue.

Travelling some 18,000 miles in their Volkswagen bus, the Dorishes were not involved in a single accident, although they report that driving on the left-hand side of the road in England and Sweden did give them some concern.

Though the trio saw many wonderful sights and made many new friends, they are happy to be home again.

Use 20,000 Gals. Paint On Highways

More than 20,000 gallons of reflectorized white paint are used each year by the Alberta Department of Highways in marking centre strips and travel lanes of provincial paved highways.

Three automatic machines, manned by two men, are employed during the spring and summer months to paint the strips at a rate of 15 to 20 miles per day. Minute glass beads are added to the paint to serve as a reflector and thus aid in night driving.

Eight gallons of paint and nearly 50 pounds of the glass beads are sufficient to mark one mile.

Butter Use Up 6,000,000 Pounds

Production of creamery butter in July totalled 49,255,000 pounds, the highest of any month in the history of the industry in Canada. Production was 6 million pounds or 14 per cent higher than in July a year ago.

In the first seven months of this year production was 28 million pounds higher than in the previous year.

Fairbanks-Morse
GAINADAY WASHER
The washer with the "Automagic" rinse cover that eliminates hand rinsing.
Available in decorator colors and in white
The Fairbanks-Morse "Automagic" rinse, an exclusive Fairbanks-Morse feature, is standard on this model FM-D24. The "Automagic" rinse is produced by the use of a special "Automagic" spray-rinse cover. Rinsing is simple, effective — eliminates hand rinsing completely, reduces wringings to just one and eliminates the necessity of rinse tubs and hot rinse water.
After the clothes are washed in the normal manner, the "Automagic" rinse hose is connected to the cold water tap to spray in clean water while the wash water is being pumped out. The water level can be checked through the view circle in the cover and can be adjusted by regulating the water flow at the tap. The complete rinsing operation takes 6 to 10 minutes.

Editors, Publishers of Canadian Weekly Newspapers To Convene

TORONTO — Weekly editors and publishers with their wives and families, representing most of Canada's 690 English weekly newspapers, will gather at the King Edward Hotel, here Sept. 4, 5 and 6, for the 39th annual convention of the Canadian Weekly Newspapers Association.

The three-day meeting will centre around discussions of the problems facing the industry and sessions will be held with representatives of advertisers and agencies and the Audit Bureau of Circulation.

BETTER PROMOTION

Highlighting the discussions, both formal and informal, will be the matter of better promotion of the weekly newspapers as an important medium for local and national advertisers.

This is expected to bring official sanction by delegates for the inauguration and support of a full-time promotion and public relations department in the CWNA national offices in Toronto.

According to William Telfer, CWNA managing director, promotion of weekly newspapers as an important medium will go a long way towards increasing revenues thereby assisting many weeklies now finding it hard to hold advertising and subscription rates at present levels and still meet rising costs.

OVER MILLION CIRCULATION

Combined circulation of the English weeklies in Canada has now passed the 1¼ million mark, Mr. Telfer said.

A number of national associations and companies will entertain delegates at various luncheons and the Government of Ontario will give a dinner.

Among guests expected will be John Thomson, managing director of the Northcliffe group of weeklies in the United Kingdom. He is currently touring Canada.

Lucien Fontaine, of Val d'Or, president of the French Language Weekly Newspapers of Canada is also expected to be present at the convention as will several representatives of weekly newspaper associations in the United States.

Alberta Farms Need Fertilizer

Dr. K. F. Nielsen, head of the soil fertility section of the federal Experimental Farm Services, says that Canada could double her annual production of farm products through more adequate use of fertilizers. A great many farmers, he told the senate's Land Use Committee, do not appear to realize the value of fertilizers.

Farmers are using about only 4 pounds of fertilizer per acre on land producing farm products.

This compares with 21 pounds in the United States, 101 pounds in Britain and 293 pounds in New Zealand. By increasing Canada's 4 pounds per acre to 40 pounds, current production could be doubled, according to Dr. Nielsen.

T-Can Gas Line To East Nears End

Construction of the final 853-mile link in the Trans-Canada Pipe Lines natural gas line from Alberta to Montreal is moving ahead on schedule, despite unusually wet weather in the northern areas and the anticipated slow going through the rock and muskeg.

On the Northern Ontario Pipe Line Crown Corporation section of the line from Port Arthur to Kapuskasing and the Trans-Canada section from Kapuskasing to Toronto all of the right-of-way has been cleared and graded, 75% of the pipe has been strung (the balance is stock-piled along the route); 80% of the ditch has been made; about 70% of the 30-inch diameter pipe has been welded; 60% coated and wrapped and lowered in the ditch.

In the muskeg country contractors have had to devise special methods of beating the sometimes bottomless mire. Miles of corduroy or rip-rap roads of planks and tree boughs have been built on the right-of-way, sections of pipe have been welded, cleaned, primed, coated and wrapped on "dry land" and pushed into the ditch, and on one occasion outboard-motor-equipped pontoons were used as barges to move through lake-like right-of-way.

As sections of the line are being completed east from Port Arthur and north from Toronto the line is being tested and Alberta natural gas is to arrive in the east on schedule by late fall. The line between Burstall, Sask., and Port Arthur and between Toronto and Montreal already is operating.

Agricultural Loan Plan Not Complete

Details on the new farm home improvement loan scheme announced by Premier Manning during his outline of the five-year plan are not quite ready to go before the public.

Agriculture Minister L. C. Halmrast said officers were now working on final details of the plan. He declined to elaborate at this stage, but said the full story on the plan would be available about the first of the week.

"FLYING SCOTT"
Smallest, lightest, huskiest "high-horse" outboard ever built!

In one great forward step, Scott-Atwater engineers have taken the 3-cylinder design proved in high-performance European engines, and applied it to the new Flying Scott—with dramatic results.

This bold, years-ahead design brings you a simple, compact powerhead only slightly larger than a 35 h.p. engine yet so remarkably efficient that it produces a full 60 horsepower!

And you get much more than pure power alone with the far-advanced Flying Scott. The 3-cylinder in-line design, with a firing impulse each 120 degrees of crankshaft revolution, is inherently balanced.

U.S.A. Visitor Feted At Farewell Party

PLAMONDON — A farewell party in honor of Mrs. Mary Plamondon who came from her home in United States to attend the Golden Jubilee celebration climaxed this event.

About 350 persons attended the party held in the Community Hall, with Mrs. Octave Chevigny in charge of entertainment. The opening number was a song by Mrs. Octave Chevigny and Edward Plamondon, the same song sung by them at Mrs. Mary Plamondon's wedding 51 years ago. Several other songs and musical selections followed.

At 10:30 p.m. 34 persons, dressed in the old time costumes worn on the day of the parade made their appearance. Brides, grooms, farmers, gentlemen in shining top hats, children in old-fashioned dresses, trappers and cowboys danced in full regalia for the enjoyment of the crowd. Gerald Plamondon, the leader, was a modern cowboy. Old men, clowns and men in ladies' modern dress, kept the crowd in gales of laughter by their antics.

A farewell speech was read to Mrs. Plamondon by Mrs. Octave Chevigny, followed by the presentation of a bouquet of flowers by Anita Gauthier. Mrs. Plamondon expressed thanks for the reception and kindnesses she had received during her visit to Plamondon.

Lunch was served. Following this a skit was presented by Mr. and Mrs. Valmore Plamondon and daughter Yvette "Old Covered Wagon". Mr. Plamondon drove the horses, Mrs. Plamondon and Yvette were seated in the wagon. Mrs. Plamondon spinning, sang "The Old Spinning Wheel." This called for an encore. Following this, four men carried the covered wagon through the hall, while the complete cast led by Gerald Plamondon sang "Roll along, covered wagon, roll along."

Has a local fair value? This question has passed through the minds of hundreds of people but still goes unanswered. Let us look at the purpose of a fair. A fair is a chance for people to exhibit their work and to judge its quality by the standards of his fellow citizens. But one point should be kept in mind regarding this standard — that is that it is local. You may be the best cake baker in the area and still not bake a first grade cake. However, don't be discouraged by this fact as a fair competition does keep up exisiting standards and through year in and year out entering even improves them as skills are gained and receipes improved.

Now consider the hazards of a local fair. There is always the difficulty, especially in junior divisions of people not entering their own work. There is no way in which this can be controlled. It is up to the fair-play traits which each individual has.

Second is the danger of one person excelling to such an extent that others lose interest. In some areas one lady may continue to take the prize in a division for so many years that others lose interest and refuse to enter.

A fair may become just a place to win money and honor. It should be an exchange of ideas and a gain of good standards, a chance to meet and know your neighbors. If your fair can meet these it is fulfilling a purpose in the community.

Remember that the fair is your fair so take an interested and active part in the organization and carrying out of the whole program.

COLLETTE DUPRE, WILLIAM KOSTUK WED IN DOUBLE-RING RITES

A pretty wedding was solemnized in the rectory of the Roman Catholic church, Lac la Biche, when Miss Collette Dupre, and Mr. William Kostuik were united in marriage. Father McGrane officiated at the double-ring ceremony for the eldest daughter of Mr. and Mrs. Armand Dupré and the third son of Mr. and Mrs. Metro Kostuik, all of Wandering River.

Given in marriage by her father, the bride was charmingly gowned in a floor-length creation of net over satin with insets of lace in the very full skirt. It featured a high neckline styled with a low "V" in the back and lily-point sleeves. Her fingertip veil of illusion was held in place by a small bridal hat trimmed with pearls and sequins. She carried a cascade bouquet of red roses and lily of the valley.

The maid of honor, Miss Gladys Trefanenko of Wandering River and bridesmaid, Miss Lena Bereska of Lac la Biche, wore waltz-length gowns featuring ruffled skirts of lace and net over satin in shades of light blue and aqua. Their feather headpieces matched their gown and their bouquets were of pink carnations and lilies of the valley.

Andy Kostuik, brother of the groom was best man and ushering guests was Lionel Herbert of Breynat.

Mrs. Dupre, the bride's mother chose a light blue linen dress with panama accessories and pink corsage.

The groom's mother wore a mauve gown with white accessories and yellow corsage.

Later in the day a reception was held for some 200 relatives and guests at the home of the groom's parents. Among the many guests attending from outside the district were two aunts of the bride, Mrs. Simonne Bibeau and Miss Lillian Goulet of Matog, Quebec.

For a honeymoon trip to Banff and Jasper, the bride chose a light beige suit with pink accessories. Mr. and Mrs. Kostuik will reside at Lac la Biche.

Gov't To Build, Furnish Homes

Strategically located in predetermined zones serving the entire province, fifty new homes for senior citizens will be constructed by the Alberta Government in 1959. Each will have accommodation for fifty persons.

In addition, two special units have been proposed for each of Calgary and Edmonton, to provide housing for eight hundred persons in each city.

Discussion with the committee concerned will be initiated shortly.

The Alberta Government will bear total cost of construction and furnishing the homes. They will be constructed on acceptable land provided by the municipalities in the areas where the home are located. When completed, they will be turned over to the people of the areas they serve.

Estimated cost of this modern accommodation for 4,100 senior citizens of Alberta is approximately $16,000,000.

New Highway Coating Success

Initial success has been achieved with an experiment of the Alberta Department of Highways in sealing highway surfaces in a manner that permits their use by traffic within hours instead of days as formerly.

First trial was applied to a 1,000 foot strip of one lane of No. 2 highway south of Ponoka. The road surface was sealed with an application of a penetration asphalt binder in place of emulsified asphalt used previously.

Before the surface was rolled, crushed rock was applied. Immediately behind the roller intense heat was applied by a mobile bank of burners stretching eight feet across the road surface.

The heat drew the asphalt binder on the crushed rock to hold it in place. The binder set quickly.

The road was opened to use two hours after finishing the processing, instead of the two to four days required previously.

A second experiment will be undertaken on No. 16 highway just east of Beverly. Confirmation of finding of the initial trial could change the province's seal coating methods. Road closure time would be reduced and seasonal seal coating periods could be materially extended.

Honor Mrs. Hay

MANNVILLE — Honoring Mrs. R. Hay on her 70th birthday, Mrs. J. Hills entertained a number of ladies at tea recently, when a most pleasant afternoon was spent. The hostess served a delicious lunch to the guests.

Athletic Group Is Reorganized

The reorganizing of the Lavoy Athletic Association was held recently, after being in operation for several years. Elections were held and president is Charlie Wade, vice-president, Harry Harsulla; with secretary-treasurer, Walter Sribney. The ball team, which was operated by the boys, now has Walter Sribney as manager. Their first game was played last Sunday against Calder.

Plans were laid for the calling of a work day on the skating rink when all old boards will be torn down and the grass burned. Several volunteers have stated their willingness to work on this project and it is hoped to have a good working skating rink in operation this winter in town.

The real test for most people comes when green folding paper becomes involved.

Only "South Bend" Esso Gas Station In This Province

Nick Purych has opened an Imperial Oil Esso Service Station on Highway 28 just west of Smoky Lake. It is named "South Bend Esso Service" and is the only Imperial Oil station in Alberta so named. Mr. Purych was for 12 years on the staff of the M.D. of Smoky Lake.

Nick's specialty at this time of year is in clearing windshields of all flies and bugs when they drive up for Imperial gas and oil. Customers' cars also get a thorough under-the-hood inspection.

Vacation School Reported Success

ABEE— Sixty pupils attended United Church Vacation School, Aug. 11-15, at Abee school. Mr. and Mrs. Leppert, Mrs. John Boulton, Mrs. Mary Kuk, Diane Prather and Lillian Chomay conducted the classes. The children enjoyed singing, handicrafts, Bible stories and games.

At the conclusion of school, handicrafts and other work completed by the children were displayed. A numbr of pupils received certificates for perfect attendance. Special prizes were given for completed projects.

Council Hires Engineers To Oversee Water Softener Plant Work

The regular monthly meeting of the council of the town of Redwater was hold in the council rooms of the town office.

Present at the meeting were Mayor Nick Syrnyk and Councillors Malowany, Walker, Bykewich, Turner and Antoniuk.

The agreement regarding the proposed water softening plant, with Imperial Oil Ltd. was to be sent to the town solicitors Lavallee and Feehan, in Edmonton for study. When approved it would be forwarded to Imperial Oil in Edmonton.

Councillor Turner moved that council engage a firm of consulting engineers to supervise the complete construction of the proposed softening plant. Councillor Antoniuk moved that Associated Engineering be engaged to supervise the work.

Tartan Transport and Construction Co. Ltd. were leased a portion of Block R, to be used as a machinery yard. Rent was set at the cost of the annual frontage tax on the property. The property was not at present being used by the town.

Building permits were approved for two residences on the townsite. New construction of a ranch style bungalow will be undertaken by William Anderson Sr. Permission was granted to Alex and Nancy Chaba to move their home from the country to the townsite provided they comply with the existing building regulations.

Honored By Friends On 88th Birthday

ISLAY—In celebration of Mr. Lew Bowser's 88th birthday a party was held at the home of his daughter and son-in-law, Mr. and Mrs. Bill Waterfield.

Some 80 friends and relatives, mostly old-timers, were present, with many coming from Winnipeg, Saskatoon, Stonewall, Man., Edmonton, Wainwright, Rivercourse, Vermilion and Islay.

A pleasant time was spent on the spacious lawn and lunch was served in the shade of the trees. Mrs. Patsy Robertson poured tea.

The party was a happy surprise for Mr. Bowser. His only son, Earl, is on duty with NATO

Find Banknote 158 Years Old

OTTAWA— A 158-year-old American banknote and a 108-year-old Canadian $4 bill have been turned up by N. F. McKee of Ottawa.

Mr. McKee said today the notes were given him 30 years ago by the president of a banknote company. He kept them for a time in an old Bible printed in 1561 but transferred them to a strong box and promptly forgot about them.

The U.S. note was dated April 26, 1800 and issued by the Farmer's Exchange Bank, Gloucester, Mass. The Canadian note was dated May 4, 1850 and was issued by the Colonial Bank of Canada.

Tribute To Alta Theatre

MANNVILLE — A bouquet was tossed in a recent week in the direction of genial Phil May of the Alta Theatre, the owner. When shows, such as "Tammy and the Bachelor", "The Robe", "A Man Called Peter" and "A Lamp is Heavy" being offered along with many more big attraction pictures for the same admission prices as ordinary ones, it is felt this calls for appreciation.

At the same time there are, each month, lucky names drawn from the guest list for free shows, numbering six each time. Also special lucky prizes at anniversary time.

Old Age pensioners are given special treatment as a token of respect, and may see all shows at the price of 35 cents. Usual admission is 50 cents. Phil is co-operative in every sense of the word, in community and all church affairs, announcing special services and even loaning the theatre for services, if needed. So, a tip of the Mirror Hat to Phil May of the popular Alta Theatre.

Rumors are often an effort by one person to destroy the popularity of another.

Visit Mexico

LAC LA BICHE — Mike Franchuk, of Lac la Biche, and four friends from Wandering River; Mike Mosick, Johnny Kostiuk, and Nick and Bill Gordichuk, enjoyed a motor trip which took them as far south as Mexico. Leaving here July 26, they crossed the border at Sweet Grass, Montana, then went through the Dakotas, Nebraska, Kansas, Missouri, Oklahoma and Texas.

On their return trip they came through Utah and saw the Grand Canyon. One of the highlights of the trip was a major league ball game between Kansas City and the New York Yankees.

Going to school or college in the spring is tough, but not as tough a spaying for someone to go.
